Stabilife® Laser Eye Protection Coatings for Flat or Curved Optics

- Hard, durable shift-free laser protection exterior optical coatings
- Patented Stabilife® optical coating technology
- Coatings applied to flat or curved optics (e.g. 6-base)
- Available in customer-specified wavelength rejection / transmission ranges in the ultraviolet, visible, near-infrared and infrared regions
- Nominal laser energy rejection > 5 OD (%R $> 99.999\%$) or deeper
- High photopic transmission
- Reliable, field-proven performance
